

Cast Members of New Moon and movie quotes

Bella Swan ~ Edward stood beside me, casting no reflection, excruciatingly lovely and forever seventeen.

~ Edward had drawn many careful lines for our physical relationship, with the intent being to keep me alive. Though I respected the need for maintaining a safe distance between my skin and his razor-sharp, venom-coated teeth, I tended to forget about trivial things like that when he was kissing me.

~ Do you think I'll ever get better at this? That my heart might someday stop trying to jump out of my chest whenever you touch me?

~Dazed and disoriented, I looked up from the bright red blood pulsing out of my arm — into the fevered eyes of the six suddenly ravenous vampires.

Edward Cullen ~ They have a name for someone who smells the way Bella does to me. They call her my singer-because her blood sings for me.

~ It will be as if I never existed.

~ I thought I explained it clearly before Bella, I can't live in a world where you don't exist.

~ After all the thousand times I've told you I love you, how could you let one word break your faith in me?

~ My heart hasn't beat in almost ninety years, but this was different. It was like my heart was gone—like I was hollow. Like I'd left everything that was inside me here with you.

~ No, no, no. Are you insane? Have you utterly lost your mind?

Jacob Black ~ You really, honestly don't mind if I morph into a giant dog?

~ If you want to blame someone, why don't you point your finger at those filthy, *reeking* bloodsuckers that you love so much?

~ I won't lose you, Bella. Not for this.

~ Yeah, I'll always be your friend. No matter what you love.

~ Don't go. Please, Bella. I'm begging. You could stay here with me. You could stay alive. For Charlie. For me. Don't die Bella. Don't go. Don't.

Alice Cullen ~ You're a human who knows entirely too much about us, they could kill us all.

~ Leave it to you, Bella. Anyone else would be better off when the vampires left town. But you have to start hanging out with the first monsters you can find.

~ There's a very good chance that they will eliminate us all—though in your case it won't be punishment so much as dinnertime.

~ In summary, she did jump off a cliff, but she wasn't trying to kill herself. Bella's all about the extreme sports these days.

Jasper Hale ~Oh I think we can handle that!

Rosalie Hale ~ I'm so very sorry, Bella. I feel wretched about every part of this, and so grateful that you were brave enough to go save my brother after what I did. Please say you'll forgive me.

~ Let me explain. I don't mean that I have any aversion to you as a sister. It's just that ... this is not the life I would have chosen for myself. I wish there had been someone there to vote no for me.

Emmett Cullen ~ Come on babe, it's just a game!

~ Hell, yes! We can find some other way to pick a fight with this Demetri.

Esme Cullen ~ Yes, of course, Bella. I already think of you as part of my family.

Dr. Carlisle Cullen ~ I'm able to do it. You would be in no danger of me losing control.

Laurent ~ I'm quite thirsty, and you do smell...simply mouthwatering.

Victoria ~ I am the one with the wicked curve ball. We shall see.

Aro ~ Marcus, Caius, look! Bella is alive after all, and Alice is here with her! Isn't that wonderful? Let us have the story.

Marcus

Demetri ~ Felix merely meant to point out the proximity of the sun. Let us seek better cover.

Felix ~ No, bring the girl.

Jane ~ Let's not keep Aro waiting.

~ This might hurt just a little.

~ Yes, Master.

Alec ~ Welcome back Edward, you seem to be in a better mood. Aro will be so pleased to see you again.

Caius ~ She knows too much. You have exposed our secrets. But when they are no longer useful to us, they will serve to sustain us. That is not your plan for this one. If she betrays our secrets, are you prepared to destroy her? I think not.

Heidi ~ Thanks. Aren't you coming?

Gianna ~ Is there anything I can get you?

Sam ~ What have you done Jacob? Why can't you just follow the rules Jacob? What the hell are you thinking? Is she more important than everything – than the whole tribe? Than the people getting killed? Oh I am sure the leech-lover is just dying to help us out.

Jared ~ He shouldn't have brought his girlfriend into this. What did he expect?

~ We've got bait.

Paul

Embry Call ~ Well, there's something you don't see every day. Ah, Paul doesn't lose his temper every day. Maybe two out of three. Well the wolf's out of the bag now.

Quil Ateara

Emily ~ So, you're the vampire girl.

Charlie Swan ~ I don't think I can live through seeing you try harder. I've never seen anyone trying so hard. It hurts to watch. I want you to be happy-no, not even that much. I just want you not to be miserable. I think you'll have a better chance if you get out of Forks. It's been months. No calls, no letters, no contact. You can't keep waiting for him.

Michael Welch ~ Are you dating that kid from La Push? Don't kid yourself, Bella. The guy's head over heels for you.
